entry to epidemic-related vehicles.

The first case was identified Monday, and subsequent testing of close contacts and others turned up the other ones, the Yunnan Health Commission said.

Three of the infected people, all Myanmar nationals in their 20s, did not have any COVID-19 symptoms. Of the others, four Chinese and one Myanmar citizen were classified as mild cases, and the remaining Chinese person as a regular case. They ranged in age from 22 to 42 years old.

At least nine people have tested positive for COVID-19 in a Chinese city on the border with Myanmar, health officials said Wednesday.

Five are Chinese citizens and four are Myanmar nationals, the Yunnan Province Health Commission said in a report posted online.

The [city](#) of Ruili, with a population of about 210,000 people, said all residents would be tested for COVID-19 and would have to home quarantine for one week. The residential compound where the infections were found has been locked down.

The city also ordered a crackdown on people who cross the [border](#) illegally, anyone who shelters them and those who organize such border crossings. It wasn't immediately clear how the outbreak started.

China has largely eradicated the spread of the coronavirus and takes strict measures whenever a new cluster emerges. Ruili has closed all businesses except supermarkets, drugstores and food markets. Checkpoints were set up to restrict
